

Metal Forming Industries Conflict Minerals Policy Statement

Metal Forming has never used and never intends to use in their products any “Conflict Minerals” as defined in the Securities and Exchange Commission’s (SEC) adopted rule which was mandated by the Dodd-Frank Wall Street Reform and Consumer Protection Act. “Conflict Minerals” are defined as gold, tantalum, tin, or tungsten.

We are committed to sourcing responsibly in order to avoid using listed conflict-minerals. We will continue working with our vendors to assure we supply DRC conflict-free products to all of our customers.
